# COMPLETE SYSTEMS FOR BEST-IN-CLASS DUST AND SLURRY MANAGEMENT

Concrete dust and slurry need to be removed in a safe and efficient way to protect you and your team from dust exposure. With Husqvarna, you get access to guidance, knowledge and a broad, fully integrated range of highly efficient equipment for dust and slurry management, enabling you to comply with rules and regulations without compromising your productivity.

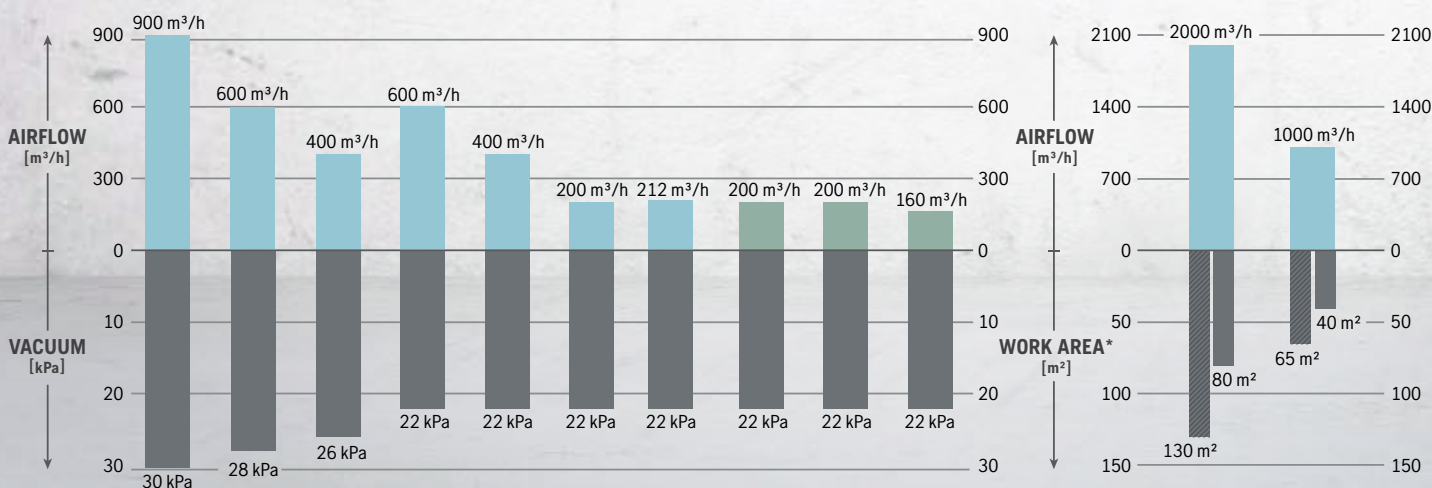

By combining our industry expertise in concrete cutting, drilling and grinding with the foremost technology in dust and slurry management, Husqvarna knows how to provide you with easy-to-use solutions that deliver continuous high efficiency over a long time span. Handling the dust and slurry more efficiently means a better way of working.

## Range overview.

Husqvarna's range of equipment for dust and slurry management covers all needs and applications within the construction industry – from the compact 1-phase dust extractors and efficient slurry vacuums to the big, powerful 3-phase dust extractors for heavy-duty jobs. The easily portable air cleaners equipped with HEPA H13 filters complete the setup for maximum workplace safety.

 At 6 air changes/h  
 At 10 air changes/h

## RECOMMENDED WORK METHODS FOR SAFER AND MORE EFFICIENT DUST CONTROL

One of the best ways to control dust is by using water. If possible, use enough water while wet cutting/drilling to bind the dust directly at the source. To keep the workplace clean, a slurry collector can be attached to a slurry vac.

If using water is not an option on the site, the cutting/drilling/grinding equipment should be used with an integrated dust collection device or tight-fitting dust shroud that captures dust directly at the source. This device should be connected to a dust extractor with the appropriate airflow and capacity for the application, and be equipped with HEPA H13 filters.

When cleaning the work area, use a scraper instead of a broom to clean the floor. Always use a dust extractor equipped with HEPA H13 filters when

vacuum-cleaning. NOTE: Standard/household vacuum cleaners are not able to catch respirable dust particles and should not be used for this purpose.

As a complement, using one or more portable air cleaners/scrubbers, equipped with efficient HEPA H13 filters, is an easy way to further reduce the level of respirable dust in the air, providing additional protection for all workers in the surrounding area. For sufficient protection from intense or long-term dust exposure, the operator should also wear an air-purifying respirator.

Wet cutting/drilling binds the dust with water directly at the source. The slurry collector connected to a slurry vac keeps the workplace clean.

Dry cutting/drilling with an integrated dust collection device captures dust directly at the source. A dust extractor with the appropriate airflow and capacity for the application, also equipped with HEPA filters, takes care of the dust. The surrounding air is filtered through a portable air cleaner/scrubber 6–10 times/hour.

	Hose coupling (2x 38 mm)	591 67 27-01
	Pipe connector, 38 mm	590 42 88-01
	125 mm nylon replacement wear strip	593 01 04-06
	Dust Hood replacement heel brush	594 10 73-01
	Anti-static hose 38 mm 30 meters	594 00 53-06
	38 mm hose to machine	590 42 88-01
	51 mm hose to machine	591 99 69-01
	38 mm hose to wand/equipment	590 43 75-01

## Husqvarna S 11.

ACCESSORIES AND SPARE PARTS		
5	Hose 38 mm/4 m hose complete	590 43 72-01
8	Wand 38 mm	590 42 86-01
10	Tool rubber blade set 370 mm	590 42 85-01
	HEPA filter cartridge	591 92 40-01
	PE bag	599 53 22-01
	Fleece bag (5 pcs)	529 32 31-02
25	Dust hood 102-125 mm	593 80 07-01
27	Dust bug 90 mm	593 05 54-01
30	Vac Kit Attachment K 4000	523 09 50-01
30	Vac Kit Attachment K 535i	594 07 78-01
32	Dust shroud 125 mm M 14	593 01 04-01
33	Dust shroud 125 mm 5/8-11	593 01 04-02
34	Floor tool 370 mm rubber 38 mm	591 99 27-01
35	Multi adapter 38 mm hose	594 95 69-01
36	Extension hose end 38 mm to 38 mm	591 67 27-01
37	Extension, 38 mm to 50 mm	591 67 26-01
38	Pipe connector, 38 mm	590 42 88-01
39	125 mm nylon replacement wear strip	593 01 04-06
40	Dust Hood replacement heel brush	594 10 73-01

\* Adapter rings for different models of angle grinders are not supplied with each dust hood, please contact us for more information on the adapter ring needed for your machine

### What is an H-classified dust extractor?

The international standard for testing wet and dry extractors, dust extractors (IEC-60335-2-69, EN-60335-2-69), are classified into three categories – L for low, M for medium and H for high – where the H category is the most stringent, not to be confused with the “H” in HEPA H13. Husqvarna S 26, S 36 and T 7500 are H-classified.

### What is a Hepa H13 filter?

HEPA is an acronym for High Efficiency Particulate Air filters. The strict HEPA standard (EN 1822-1) is divided into different levels (E10 to H14) depending on filtration efficiency. Husqvarna applies level H13, which is designed to separate up to 99.95% of the particles between 0.15 and 0.30 µm in size. This particle size is the hardest to separate – both larger and smaller particles are easier to capture in a filter. In addition, Husqvarna tests each filter individually before delivery to approve that the filter really fulfils the HEPA H13 standard.

## Husqvarna W70P/ W70

### ACCESSORIES AND SPARE PARTS

1	Wet bag W70P, multi-layer, TH 55 W/5, order per piece in multiple 5	594 93 27-01
1	Dry bag for W70P, multi-layer, TH 55, order per piece in multiple 5	595 00 18-01
2	Polyester filter W70, W70 P	590 43 89-01
3	Polyester filter assy with float W70, W70P	590 46 93-01
4	Hose complete 38 mm 3 m (W250P, W70, W70P)	590 42 79-01
5	Wand 38 mm	590 42 86-01
6	Floor tool 370 mm rubber 38 mm	591 99 27-01
7	Mounted squeegee kit	591 21 20-02
8	Tool rubber blade set 370 mm	590 42 85-01
9	Slurry rings WSR 100 mm	593 56 30-01
9	Slurry rings WSR 150 mm	593 56 30-02
9	Slurry rings WSR 200 mm	593 56 30-03
9	Slurry rings WSR 250 mm	593 56 30-04
9	Slurry rings WSR 300 mm	593 56 30-05
9	Slurry rings WSR 350 mm	593 56 30-06
10	Slurry collector V-shaped 350 mm	531 07 46-22
10	Slurry collector V-shaped 700 mm	531 28 00-07
	Inlet hose end, 38 mm inlet to 38 mm hose	591 62 68-01
	HEPA13 filter	592 06 14-01
	Extension hose end 38 mm to 38 mm	591 67 27-01

## Husqvarna W 250 P.

### ACCESSORIES AND SPARE PARTS

1	Wet bag W250 P, multi-layer, TH 29 W, order per piece in multiple 5	594 93 32-01
1	Dry bag for W250 P, multi-layer, TH 29, order per piece in multiple 5	594 93 36-01
4	Hose complete 38 mm 3 m (W250 P, W70, W70 P)	590 42 79-01
5	Wand 38 mm	590 42 86-01
6	Floor tool 370 mm rubber 38 mm	591 99 27-01
8	Tool rubber blade set 370 mm	590 42 85-01
9	Slurry rings WSR 100 mm	593 56 30-01
9	Slurry rings WSR 150 mm	593 56 30-02
9	Slurry rings WSR 200 mm	593 56 30-03
9	Slurry rings WSR 250 mm	593 56 30-04
9	Slurry rings WSR 300 mm	593 56 30-05
9	Slurry rings WSR 350 mm	593 56 30-06
	Extension hose end 38 mm to 38 mm	591 67 27-01
	Adapter machine - hose 38 mm	591 62 68-01

## Husqvarna C 5500.

### ACCESSORIES AND SPARE PARTS

11	Longopac® standard (4 x 23 m)	590 42 92-01
12	Hose complete, 76 mm 10 m	590 43 70-01
13	Pre-separator trailer T 7500, C 5500	590 43 33-02
14	Pre-separator trailer T 10000, C 5500	590 43 33-01
15	Big bag rack kit for C5500	597 86 88-01
	Longopac® recycle (4 x 20 m)	529 68 10-01

## Husqvarna C 3000.

### ACCESSORIES AND SPARE PARTS

11	Longopac® standard (4 x 23 m)	590 42 92-01
13	Pre-separator trailer S26, C 3000	590 43 33-04
13	Pre-separator trailer S36 / T 4000, C 3000	590 43 33-03
	Longopac® recycle (4 x 20 m)	529 68 10-01
	Hose complete, 63 mm 2.5 m	591 97 09-01
	Hose complete, 63 mm 10 m	590 43 74-01

## Husqvarna A 2000.

### ACCESSORIES AND SPARE PARTS

16	Pre filter A 2000 (20 pack)	590 43 00-02
16	Carbon filter A 2000	591 99 40-01
17	Hepa filter A 2000	590 42 77-01
18	Transport cover A 2000	590 48 07-01
19	Inlet Hose Adaptor A 2000	590 43 78-01
20	Hose, A 2000 (254 mm x 6 m)	591 50 82-01

## Husqvarna A 1000.

### ACCESSORIES AND SPARE PARTS

16	Pre-filter A 1000 (20 pack)	590 43 00-01
16	Carbon filter A 1000	591 99 41-01
17	Hepa filter A 1000	590 46 08-01
18	Transport cover A 1000	590 48 08-01
19	Inlet Hose Adaptor A 1000	590 43 79-01
20	Hose, A 1000 (160 mm x 6 m)	591 50 44-01
