## 美佳软性风管

Delta Duct Systems Ltd

***The leader in flexible airducting***

**Supaflex** flexible duct is manufactured by laminating aluminium foil and either to a tough polyester film or another ply of foil over a spring steel wire helix.

Insulated flexible ducts are formed by sandwiching the 24kg/m<sup>3</sup> fabric glass between an aluminum foil on a tough polyester film with another layer of film on the helical coil of the spring wire.

## Constructive advantage

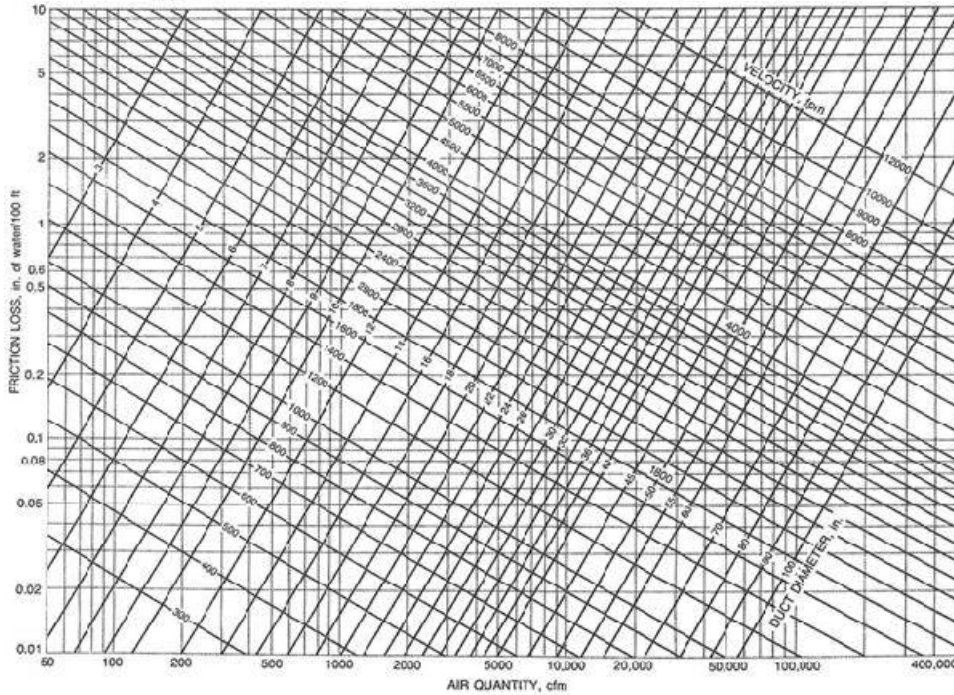

- ▶ Ultra tough aluminium layer
- ▶ Overlapping of aluminium foil surrounding
- ▶ Insulated with fibreglass and covered with on outer jacket which eliminated time-consuming on-site
- ▶ For transport and site handling the duct is compressed, thus reducing freight and storage costs

Product Name :	Supaflex
Model :	13AP
Type :	Flexible air duct (Bare) Insulated flexible air duct Acoustic insulated flexible air duct
Length :	Standard 6 meters or by tailor made
Diameter :	100, 125, 150, 200, 250 & 300 (mm)
Insulation :	Factory insulated with fibreglass blanket in 25mm or 50mm thick
Fiberglass Density :	24kg (thermal conductivity : 0.033 W/MK) 32kg (thermal conductivity : 0.032 W/MK)
Temperature Range :	-5 to 90°C
Pressure :	2Kpa max. working pressure
Fire Rating :	BS476 Part 6, 7 & 12 UL181
Comply :	HKFSD requirement UK building regulations class "0"
Puncture :	Comply with HKFSD
Acoustic Test :	ADC Test Code FD 72-R1 ASTM E477-06a

(Attn. : Mr. Ivan Y. C. LEE)

Dear Sir,

**“Supaflex” 13 AP Flexible Air Duct**

I refer to your above letter of 27.10.2020 enclosing a set of product catalogue, test reports and supplementary documents of 14.12.2020 with respect to the captioned product.

We have no in principle objection to the use of “Supaflex” 13A AP flexible air duct in ventilating systems in Hong Kong subject to compliance with the requirements stipulated in Part XI of FSD Circular Letter No. 4/96 and according to the following details:

Manufacturer : Delta Duct Systems Ltd

Brand Name : “Supaflex 13 AP” Flexible Air Duct

Material : The duct comprises of an insulation layer of glasswool (light yellow colour, 25 mm thick, 24 kg/m<sup>3</sup>) sandwiched between an inner core of aluminium/polyester laminate encapsulating spring steel wire helix and an outer aluminum/polyester vapour barrier.

Test Report : Puncture Test  
By Element Materials Technology Canada Inc.:  
a) 20-06-P0118, RV1 of 11.12.2020  
Fire Spread Properties  
By Exova Warringtonfire:  
b) 412875 of 17.5.2019  
c) 412874 of 17.5.2019

/2...

Test Standard and result : a) BS 476: Part 6:1989 + A1: 2009 – Fire Propagation Index Overall Performance  $I \leq 12$ , Sub=index  $i_1 \leq 6$   
b) BS 476: Part 7:1997 – Surface Spread of Flame Class 1  
c) Puncture test (for 150 mm, 200 mm and 250 mm diameter duct) - Pass

Remarks : a) No assessment was made on the density and toxicity of smoke generated by the material under fire condition.  
b) The word “SUPAFLEX” is to be marked on the outer surface of the product at approx. 1000 mm interval for product identification.  
c) This letter supersedes our previous letter of the same series dated 31.5.2019  
d) This assessment is subject to review by December 2025 or with the updating of the edition of the test standard.

Yours faithfully,

(Stanley CHOW)  
for Director of Fire Services
